Dear Mr. Schneider:

On February 20 and 21, 2003, the Department of Environmental Services, Waste Management Division ("DES") conducted an inspection of Teradyne Circuits Operation ("Teradyne"). The purpose of the inspection was to determine Teradyne's compliance status relative to RSA Ch. 147-A and the New Hampshire Hazardous Waste Rules, Env-Wm 100-1100.

As a result of the inspection, Teradyne was issued Letter of Deficiency No. WMD 03-11 (the "LoD"). Based upon a review of Teradyne's submittals, DES has determined that your facility has corrected the deficiencies identified in the LoD.

Please be advised that DES will continue to monitor Teradyne's compliance status through record reviews and on-site inspections.

If you have any questions regarding this letter, please contact Tod G. Leedberg, RCRA Compliance Supervisor, or me at (603) 271-2942. Thank you for your cooperation.

Sincerely,
